**Renee Collins : Until We Meet Again** before purchasing it in order to gage whether or not it would be worth my time, and all praised Until We Meet Again:

0 of 0 people found the following review helpful. Swell storyBy InkongirlCassandra is bored with her summer vacation, until one night when she meets a mysterious boy on the beach. He's cute, charming, and from 1925. Now, the summer just became more interesting. This is a sweet summer romance with a nice twist.0 of 0 people found the following review helpful. A Very Enjoyable ReadBy CustomerI would like to give this book 4.5 stars. The first couple

of pages, maybe the first chapter was a bit off-putting for an older person but once I got into the rhythm I thoroughly enjoyed it. It was a lovely plot and wonderfully romantic without being overly sentimental or cloying. The end was not as I expected but just the way it had to be. I think Ms. Collins has a future in story-telling. She may never write the Great American Novel but she knows how to write a Very Enjoyable Read. 0 of 0 people found the following review helpful. Good read By koko I thought this book had an interesting time travel concept. It seems Cass and Lawrence are meant for each other. The romance is good between them. But the ending was a surprise.

Country clubs and garden parties. The last thing Cassandra wants is to spend the summer before her senior year marooned in a snooty Massachusetts shore town. Cass craves drama and adventure, which is hard when she just feels stuck. But when a dreamy stranger shows up on her family's private beach, claiming that it is his property—and that the year is 1925—Cass is swept into a mystery a hundred years in the making. As she searches for answers in the present, Cass discovers a truth that thrusts Lawrence's life into jeopardy. It won't matter which century he is from if he won't live to see tomorrow. Desperate to save the boy who's come to mean everything to her, Cassandra must find a way to change history...or risk losing Lawrence forever. "Until We Meet Again is tragically beautiful with twists you won't see coming." -Martina Boone, author of *Compulsion* and the *Heirs of Watson Island* trilogy "A beach house, a mystery, and time-travel love make *Until We Meet Again* a romantic, engaging read." -Deb Caletti, National Book Award Finalist for *Honey, Baby, Sweetheart*

From School Library Journal Gr 8 Up Two emotional teenagers meet on the beach and bond over art, poetry, and feeling misunderstood, only to find out they live in the same house 90 years apart. Cassandra and Lawrence can only see each other on the strip of private beach behind the house that Lawrence occupies in 1925 and that Cassandra's family is renting in 2015. Cassandra takes to the library to do some digging on her new beau and discovers he was/is going to be murdered on that very beach in just 10 days. The love-struck teens are torn between staying in their own time periods to investigate (and try to prevent) the murder and spending what might be Lawrence's last days on Earth together. The romance is woozy and breathless, which gives it a classic feel, and the investigating the teens do on both sides of the event builds some suspense. While there's quite a bit readers have to accept here (not one person in either time period is interested in using this beautiful private beach except the teens, ensuring nobody figures out their secret until the very end; any culture shock Lawrence might be feeling at the language and dress from 2015 is brushed off a little too easily; and the explanation as to why they can see each other in the first place is spotty), readers with a flair for the dramatic and romantic will overlook these points easily. VERDICT A hazy, romantic mystery that might appeal to fans of Nicholas Sparks. Beth McIntyre, Madison Public Library, WI "A beach house, a mystery, and time-travel love make *Until We Meet Again* a romantic, engaging read." - Deb Caletti, National Book Award Finalist for *Honey, Baby, Sweetheart* "Until We Meet Again is a time-travel romance, and it's just as epic swoony as you'd hope, while still being able to feel poignant and realistic. (Yes, I said realistic.) The emotions feel so real and present, and the novel will put a spark into the darkening days." " - Bustle.com About the Author Renee Collins grew up on a beach in Hawaii. Sadly, she never met anyone from the past on those shores, but she did go on to get a degree in History, which is almost the same. She currently lives in Colorado with her family.
