From n/a : Uruguay Una Mirada Desde El Cielo, A View From The Skies before purchasing it in order to gage whether or not it would be worth my time, and all praised Uruguay Una Mirada Desde El Cielo, A View From The Skies:

"The following pages offer this perspective - unaccustomed images from above that provide a more comprehensive view over the landscape. They offer a glimpse into the country's history, which began millions of years ago and provides an explanation to the features of this territory. They also cast a view over the story of everyday life, evident in the efforts of agricultural activities or in the eagerly awaited leisure at the holiday resorts. We are now ready for takeoff to Uruguay"
