**National Geographic Maps - Reference : USA Classic Political Map Laminated** before purchasing it in order to gage whether or not it would be worth my time, and all praised USA Classic Political Map Laminated:

4 of 4 people found the following review helpful. Excellent gift for a kid!By Tired ParentThis one went on the wall of our oldest kid. Had to put it up against his screaming "objections," as he wanted either my vintage "KISS" poster or the map of Europe (that one went to his brother). Now they (our two sons) are playing a game of who can memorize more capitals (US states vs. EU states), bodies of water, bordering states etc. These games get pretty vicious sometimes, but hey... at least they both know the capital of Kentucky and can find Monte Carlo!  
4 of 4 people found the following review helpful. Great mapBy MikeenI bought this to track my various road trips around the country, and it did not disappoint! It is large enough to differentiate between the various routes you might take going cross country yet detailed enough to plot my specific trips on the major roads. I don't have too many specific positives, however this map was exactly what I expected (a laminated map of the US) and allows me to plot my various trips through the country with ease and accuracy. If you are looking for more than this you may want to look elsewhere, but this suited my needs perfectly! Definitely recommended!

The signature Classic style United States map uses a bright, easy to read color palette featuring blue oceans and stunning shaded relief that has been featured on National Geographic wall maps for over 75 years. All 50 States are featured including insets for Alaska and the Hawaiian Islands. An inset demonstrating the relative size of Alaska is shown as well. All major cities, transportation routes, State boundaries, National Parks, inland waterways, and mountain ranges are clearly displayed and labeled. It is truly an iconic map that never goes out of style. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:4,561,000 Sheet Size = 43.5" x 30.5"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
