From Hallwag : USA Southwest (Road Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised USA Southwest (Road Guide):

They are large scale and allow me to look at my route in detail. You never know when your electronic GPS device is going to burp---I find it always better to have a good set of maps backing me up on any treat---and you don't need an internet connection to use them!

We followed Route 66 for part of our trip and the map showed all of the little towns along the way. It also helped us plan the distance between National park stays Really glad we bought it
