**National Geographic Maps - Reference : Utah [Laminated] (National Geographic Reference Map)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Utah [Laminated] (National Geographic Reference Map):

1 of 1 people found the following review helpful. Great Visual Display...By Paul D.THIS MAP IS AWESOME ! It is BIG it is a Little Taller than Half of my door and is almost as wide ! It has Mountain Ridges, Lakes and Most Importantly for Me Lists Cities !1 of 1 people found the following review helpful. Five StarsBy Ryan R. ChristiansenNice durable and functional map for general purpose.1 of 1 people found the following review helpful. Five StarsBy Lydia WilliamsLove this map! Great detail and a beautiful map. It's exactly what I was hoping for.

Explore the diverse and iconic landscapes of Utah with this striking National Geographic wall map. From the

Bonneville Salt Flats and the Great Salt Lake to the Uinta Mountains and the extraordinary parks along the Colorado Plateau, the state is rendered in dramatic detail. Stunning shaded relief and vibrant colorization depicts mountain ranges, forests, deserts, canyons, and other physical topography. Prominent peaks, major lakes, rivers, and reservoirs, and other geographic features are highlighted. In addition to hundreds of place names, this map includes the locations of cities, major roadways and railways, airports, military bases, national and state parks, and recreation areas. Part of a growing series of State Wall Maps, this expertly designed map makes an attractive addition to any office or study. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:700,000 Sheet Size = 30.25" x 40.5"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
