before purchasing it in order to gauge whether or not it would be worth my time, and all praised Utah National Parks [Map Pack Bundle] (National Geographic Trails Illustrated Map):

2 of 2 people found the following review helpful. High quality maps, useful during a road trip to Utah. By Louis P. Was very helpful during our recent road trip to the park areas of South Utah. We hiked a lot and the maps were great. A lot easier to grasp the geography of the parks on a map than on your phone and it helps a lot with planning for next day while eating dinner at the campsite. Content about the geology and specificity of the parks is interesting too. High quality map (both paper and content) I did not manage to damage at all during our 10 days. I'd recommend getting another "All of Utah" map for the driving part. 2 of 2 people found the following review helpful. Great maps! Can't beat price for all 5 maps. By Customer Great maps!
