TABIPPO : UYUNI iS YOU before purchasing it in order to gauge whether or not it would be worth my time, and all praised UYUNI iS YOU:

This is the first photo collection of "Salar de Uyuni," which is called the Greatest Miracle in the World. "Salar de Uyuni" is the largest salt flatland in southeast Bolivia, and in the rainy season (December to March) rain covers the flatland with a thin layer of water, which turns it to the largest mirror in the world! This deluxe photo collection reproduces this natural wonder, printed on high quality paper in a large format. This book also includes 60 smaller photos which you can cut out and use as a memo.

About the Author TABIPPO, Inc. was founded by those students who had traveled around the world, and does various activities to spread the habit of traveling among the youth.
