Home Planners : Vacation and Second Homes: 465 Designs for Recreation, Retirement and Leisure Living: Under 500 Square Feet to over 5000 Square Feet before purchasing it in order to gage whether or not it would be worth my time, and all praised Vacation and Second Homes: 465 Designs for Recreation, Retirement and Leisure Living: Under 500 Square Feet to over 5000 Square Feet:

0 of 0 people found the following review helpful. Cover deceivesBy mmitchellVacation and second homes?? Most of

the homes were over 2000 sq ft. I was expecting homes less than 2000 sq ft to qualify as the average vacation and second home similar to the illustration on the cover. Not useful to me. 0 of 0 people found the following review helpful. Only a few useful plans. By Panzergreni I was looking for another info source on small house plans since I am gearing up to build my own cabin. Based on the title and the cover photo, this book appeared to fit the bill. Unfortunately, the vast majority of plans are for more or less conventional residential houses, most of them way too large to be considered for a cabin. 1 of 1 people found the following review helpful. Many nice plans. By anon Quite a variety of plans for small houses. Can't wait to use it to plan our vacation home in the mountains.

From simple A-frames to terrific Tidewater designs, Vacation Second Homes now features 500 of the very best plans ever offered. And over 30% of the plans in this book are brand-new! Home Planners now proudly offers the most comprehensive collection of plans available to meet this demand. The traditional exteriors of these exciting new designs belie the open and efficient interior floor plans providing complete livability.
