**Carsten Todtmann : Venezuela (English, Spanish and German Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Venezuela (English, Spanish and German Edition):

Karl Weidmann was one of the most famous Venezuelan Landscape Photographers. He died in Caracas. Karl was born in Switzerland and came to Venezuela in 1946. His original plan was to travel to Brazil seeking the wonders nature hast to offer, but once he had seen the beautiful and varied Venezuelan natural landscapes, he decided to stay. Venezuela has been displayed through his lenses in a glamorous and beautiful way. His book "Venezuela" with photos of everything about the country, is the greatest souvenir. Written in three languages: English, Spanish and German, it makes the Venezuelan history and nature accessible to everyone.

Language NotesText: English, Spanish, German
