**Marion Morrison : Venezuela (Maj World Nations) (Major World Nations)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Venezuela (Maj World Nations) (Major World Nations):

Examines the history, geography, economy, climate, and people of Venezuela, the "Gateway to South America."

From School Library Journal Grade 4-7-- These are books that most school libraries could utilize, as they offer information usually found in encyclopedias in essay form. Each book follows the same basic format: table of contents, topical chapters, appendices (labeled "Mini-facts at a glance"), and a fairly extensive index. Vocabulary is occasionally difficult, and slower readers will encounter some difficulties with language. Each book is replete with compelling full-color photographs that capture the people and the place. Valuable contributions to students' understanding of three very different nations. --Becky Rosser, Aversboro Elementary School, Raleigh, NC Copyright 1989 Reed Business Information, Inc.
