Map of VenezuelaBy Julia La RosaThe best map of Venezuela in the whole world (if you don't own a GPS)10 of 10 people found the following review helpful. The best Venezuela map you can buyBy Christopher J. SharpeInternational Travel Maps have established themselves as the definitive national maps, at least in the Western Hemisphere. This is no exception - it is without a doubt the most authoritative national map of Venezuela. Watch out for the forthcoming maps by Emilio Perez though. Rarely encountered in Venezuela, you will need to purchase this before leaving. The map is topographical with good political information, accurate roads and some environmental and cultural information to boot.1 of 1 people found the following review helpful. Good Map of VenezuelaBy G. RyersonThis is a nice map of Venezuela. A little pricey, but it does the job.I do though recommend though that for serious road travel in Venezuela that one gets a GPS having Venezuelan road maps. Road signs in Venezuela ore poor or non-existant so GPS, especially one that gives spoken directions, is the way to go.

Map of the country and portions of its neighbors with elevations shown by color changes.
