We are going to Venice for our 4th trip in spring and I had not saved previous maps. I thought it would be good to have this small one but it is good only for a broad overview. Yes, you can see the main attractions and the waterbus service stops, but unless you are already close to the attraction or stop, this map will not provide enough detail to get you very far. In Venice, you really need lots of detail because many areas are accessible only by small alleys. I will give this to my granddaughter so that she gets an overview. But for an actual map, which get us from A to Z, forget about this one. The map which comes with your pass for the ferrys is better. Still searching for a good small one which is also laminated. Save your money or, if you live in San Antonio, you can have mine!0 of 0 people found the following review helpful. Just OKBy HVEBought the map for my trip to Venice thinking a laminated pop out map would be helpful. I didn't think it was detailed enough to get around on the streets. I found the paper tourist maps given out by the hotel at check in to be easier to use around town.1 of 1 people found the following review helpful. Fantastic pocket map!By KassieLoved this small portable map on Venice! Worked for my needs and I used often, as was lost in the small alleys wandering around.

Discover the magical canals and romantic palaces of Venice with the help of this genuinely pocket-sized, pop-up map. Small in size yet big on detail, this compact, dependable, Venice city map will ensure you don't miss a thing.

About the AuthorPopOut is the unique, genuinely pocket-sized mapwhich features our patented PopOut fold. It is this

innovative design that allows our precise, easy to follow cartography to be right in your hand when you need it most. Moreover, the origami fold means you can do away with that awkward, oversized map, making it a compact and discreet reference tool that doesn't shout tourist alert! PopOut was founded in 1993. Having spotted a need to cure what he calls 'Map Stress Syndrome' after watching numerous tourists around the City of Bath, England, battling with oversized maps, founder Derek Dacey recalled the invaluable miniature charts he used during his days as a commercial pilot. Aiming to bring this level of usability to the city map market, a small team of designers was recruited to realise what would soon become the PopOut. 1993 saw the release of the first ever PopOut Map Bath, which was sold in the gift and souvenir trade across the city. Hot on the heels of this initial success, a research trip to the USA culminated in a redesigned layout, combining strong photo images, high quality printing and laminated covers standards which are still adhered to today. That research trip also saw the birth of the first US destinations covered in the PopOut range Boston, NYC, Philadelphia and Washington DC. Launched in the new style in the US they enjoyed instant success in the gift and souvenir trade. Today, PopOut produces over 100 titles for major destinations and is loved by travellers the world over.
