one star off, is because Victoria province is cut in half, and east and west are printed on opposite sides. At least Melbourne is entirely on one side, but the greater vicinity is split. Had I known that, I might have kept shopping. I wanted to use it like a "war map," displayed on a wall, with flags and pins marking specific locations for a project. It's quite pricey to buy another one just so I can do that. 0 of 0 people found the following review helpful. Detailed. A necessity for getting away from the usual tourist spots. By Thomas E. Gaskill This map is highly detailed--much better than the others I've seen. If you're going to less-travelled locations (I'll be on an extended birding trip), the other available maps just don't have enough granularity. It's sturdy and folds nicely, but is too large for most pockets. (It will fit in cargo pants, though.) If you're going to the usual tourist locations, other maps will do. If you want to get off the beaten track, get this one.
