It is an excellent detailed map of the north, but as someone who is trying to plan a trip, it's too much. Our problem is that since we are not familiar with the country, this map is disorienting. We bought both the north and the south and cannot even place them alongside one another to show the whole country. I'd say if you're going to one area of the country, this is probably an excellent map.0 of 0 people found the following review helpful. DurableBy Lisa ErskineIt is made from a thin plastic which makes it durable, rip resistant, won't fall apart in the rain and long lasting. It is easy to read and understand. I like it. It is much better than a paper map.0 of 0 people found the following review helpful. Five StarsBy James P. OHareSimply indispensable when traveling in Vietnam!
