From Brand: Viva Publishing : VIVA Travel Guide Quito, Ecuador (Viva Travel Guides) before purchasing it in order to gauge whether or not it would be worth my time, and all praised VIVA Travel Guide Quito, Ecuador (Viva Travel Guides):

only guidebook I could find that was specific to Quito. This was the only guidebook I had during that time, and while it served me well I always felt I was missing out on things because of its lack of organization. While it has information about more hotels, sites, and restaurants in Quito than the other general Ecuador guidebooks do, I did not find it to always be reliable despite the authors' claim to be the most up-to-date guidebook. Restaurant listings seemed to be particularly weak. The maps in the book are also not up to the quality of most other guidebooks. I understand that the Viva guides are somewhat new, so I hope they benefit from more editing in future editions. 4 of 5 people found the following review helpful. SLOPPY NAIVE By JOHO This may be the worst guidebook I have ever used. Terrible index, sophmoric (we all like opinions but not these), poorly organized, incomplete....you get at least my picture of this book. Folks---it is a great and interesting city....Get it together.....Redo the book with more attention to detail and fewer fatuous opinions. tem h3 of 4 people found the following review helpful. Worst travel guide ever written. By Fudnucker This book reads more like a tourism brochure put out by the local tourist authority. There is no real insight here. There are no good or bad opinions, just waffle. Don't waste your money or time on this one.
