A disappointing guide to Sao Paulo By Alizah Brozgold This guide book provides information on a very limited number of interesting sights in Sao Paulo. The photographs are lovely and the book is designed with a pleasing esthetic but it's essentially useless other than seeing a few of the major places to visit. There was nothing here that I didn't see online already. I glanced through it in less than 15 minutes and did not bring it on my trip to Sao Paulo. 0 of 0 people found the following review helpful.
