Tom Price : Washington, D.C. For Dummies (Dummies Travel) before purchasing it in order to gage whether or not it would be worth my time, and all praised Washington, D.C. For Dummies (Dummies Travel):

1 of 1 people found the following review helpful. Book just as described!By B. ChesteenI bought this book used and was pleasantly surprised when I received it. I can tell it had been used some but it was still in great shape. A new book was \$45 and I paid under \$10 with shipping. It has a lot of great info on Washington DC and is helping me plan our

vacation. It has information on what to see and maps to help you know where things are located. The hotel section seemed a little dated but I just did a little checking online for hotels. 0 of 0 people found the following review helpful. useful but outdated By SPCThe Dummies books are always great, but I bought a used one and forgot to keep in mind that a used would have outdated restaurants, etc. Next time I'll spend the extra \$\$ and get a current version. 3 of 3 people found the following review helpful.
