PopOut Maps : Washington D.C. PopOut Map (PopOut Maps) before purchasing it in order to gage whether or not it would be worth my time, and all praised Washington D.C. PopOut Map (PopOut Maps):

I had been concerned that the pop out feature would be more distracting than useful, but it actually is a fantastic feature. It stores easily and opening to the section that is currently needed is easy and does not leave you holding a huge map every time you need to figure out how to get from one place to another. It was also incredibly useful to have the metro information on the map. I just wish that it had been completely laminated - yes, it did start raining during the presidential swearing in of the 2017 inauguration - it would have been nice to not worry about rain soaking the un-laminated paper portions. I will definitely look for PopOut Maps when purchasing maps again.1 of 1 people found the following review helpful. clever!By Patty MattySo glad I had this on our recent trip to DC.
