**Peggy Goldman : Washington's Highest Mountains: Basic Alpine and Glacier Routes** before purchasing it in order to gage whether or not it would be worth my time, and all praised Washington's Highest Mountains: Basic Alpine and Glacier Routes:

2 of 2 people found the following review helpful. greatBy NomDeJourA lot of really good information. All guidebooks should be like this and provide GPS coordinates for waypoints like passes cols, camps, summits, etc etc.0

of 0 people found the following review helpful. Five StarsBy Rikki-rachelle HinzReally great guide book. I love how she structured the beta for each climb.0 of 1 people found the following review helpful. Limited informationBy Jon R. Generally gave only the most popular route up any particular mtn..I was looking for Mt Baker routes and unfortunately the route described was not available do to a road closure

A remarkable compendium of the most doable climbing routes up the highest peaks in Washington. Author Peggy Goldman has writtent this book for climbers of all abilities, but especially those "average mountaineers" wishing to increase their skills and expand their horizons in the Washington Cascades' challenging terrain. 35 trips are described, covering 61 distinct peaks, encompass alpine and glacier climbs ranging from class 3 to class 5.
