**Anonymous : Ways of Travelling (Chinese-English Edition) (Must-have for the Cognition of Children Aged 2-6)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ways of Travelling (Chinese-English Edition) (Must-have for the Cognition of Children Aged 2-6):

We select 40 common topics for these cognitive cards from a child's perspective. They are matched with exquisite pictures, appropriate text and English words which can help children learn knowledge happily like in games. English songs which are specifically designed for these cards are also included. The cards could be used together with the series book of Children's Innocence, which consists of Children's Innocence Cognitive Cards, My Day, Four Seasons, Five Feelings of Mine, Environment of Living and Biology of Earth. This book is just one of them.
