**Merriam-Webster : Webster's New Geographical Dictionary** before purchasing it in order to gage whether or not it would be worth my time, and all praised Webster's New Geographical Dictionary:

0 of 0 people found the following review helpful. Necessary for Genealogy buffsBy D. LairdAlmost the last word for deciphering just where those pesky ancestors must have moved to. Brief and to the point.

Book by Merriam-Webster

Webster's New Geographical Dictionary is an essential, quick-reference source of basic information on the world's continents, countries, regions, cities, and natural features. It features more than 47,000 entries, 218 maps, and 15,000 cross-references provide key facts in concise, easy-to-use form about today's world. All entries are alphabetical and include pronunciation. Valuable supplements list more than 450 basic geogrpahical terms from other languages with their English equivalents. Webster's New Geographical Dictionary is an essential reference tool for home, office, school, and library. Webster's New Geographical Dictionary is the benchmark publication for all geography department reference book collections. Send for Merriam-Webster's catalog for a complete listing of their many fine dictionaries and reference books. -- Midwest Book
