National Geographic Maps - Reference : Whales of the World [Tubed] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Whales of the World [Tubed] (National Geographic Reference Map):

0 of 0 people found the following review helpful. All in one By Daisy Informative and interesting took at for anyone who likes whales. Good for hanging on a wall or gluing to a foam board.

Learn about these giant creatures of the sea with a map that introduces 17 different whale species. Each whale is drawn to scale and includes scientific names and information about their size, feeding patterns, and history. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Sheet Size = 29.75" x 21"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
