Keep it in SaudiBy girl3173After paying a whopping 60 bucks for this read, i was expecting a great read of a life changing experience through the middle, east instead all i get to read about is how this blond bimbo tramped her away around saudi arabia sleeping with everything in site, and letting herself be used and abused. Totally disappointing.0 of 0 people found the following review helpful. great first hand accountBy M. alstonthe book is full of details about an american woman in saudi arabia. It gives fascinating insights into the culture of saudi - from the westernized men who now chafe at traditional culture to the bedoines who may feel

cleaner washing with sand than soap. In the back drop of all that is a medical diary of a nurse working in a speciality eye hospital. Entertaining and illuminating. 0 of 0 people found the following review helpful. A wonderful tale of adventure! By Sister MR This is a wonderful read! A story of how a girl transforms into a woman while being a nurse in Saudi. Amazing stories and harrowing adventures! I admire the author for the courage to leave the US and go to a foreign land to practice nursing. You'll enjoy it!

What Happens In Saudi Arabia, Stays In Saudi Arabia, Except For This Book. Is a candid account of my almost 3 years as a single American Nurse in Saudi Arabia. I was fascinated, and often disturbed by the very conservative Muslim Culture. I met people from all over the world, there to work as I was. The difference was, I was there for the adventure, while most everyone else was there due to financial hardships in their home countries. After friends family told me how much they enjoyed hearing my "Saudi" stories, I decided to share them with a bigger audience. You will laugh out loud more than once!

About the Author I am a writer and a story teller, a Registered Nurse, and cat lover. I am a serious observer of the world, and most things deserve a comment, or a question. I enjoy making people laugh.
