Stanley Johnson : Where the Wild Things Were: Travels of a Conservationist before purchasing it in order to gage whether or not it would be worth my time, and all praised Where the Wild Things Were: Travels of a Conservationist:

In this volume of collected travel and environmental journalism, Stanley travels from Exmoor to Ecuador, India to

Istanbul, and across many other routes. He is charged at by mountain gorillas, encounters pandas, tigers, blue-footed boobies and the elusive blue whale. Dauntless, he climbs Kilimanjaro, catches cold at the Glastonbury festival, tracks down his ancestors in Turkey and meets legendary environmentalists such as Jane Goodall. Behind the infectious Johnson humor, there lies the deep passion of a man who has spent his life in search of wild places and wild animals, and is committed to their defense.
