**Nick Gordon : Wild Amazon: A Photographer's Incredible Journey** before purchasing it in order to gage whether or not it would be worth my time, and all praised Wild Amazon: A Photographer's Incredible Journey:

0 of 0 people found the following review helpful. Great book with great pictures and great text to go ...By GregGreat book with great pictures and great text to go with it! I bought this one as well as the one by Alex Webb. I was super impressed with this one, not with the other. This has pictures of the people, animals, and scenery. Awesome!0 of 0 people found the following review helpful. CLASSIC AMAZON RAINFOREST BOOKBy Paul HammerThis is one of my favorite books on the . Nick Gordon's work is inspiring, and is work in the field is legendary. Great photos, great writing, and one of the best books you could hope to find on the subject of wildlife and the .0 of 0 people found the following review helpful. ExcellentBy SARAH A JESSUPFascinating book with great photos

Amazonia is, without doubt, the greatest rainforest on earth. Some 50 percent of the world's terrestrial species, including rare - and often unique - animals and plants are found here, while during the rainy season, a staggering one fifth of all fresh water on the planer flows along the mighty river Amazon. Nick Gordon's photographs give us an unrivalled insight into that wilderness. Having lived in Amazonia for more than ten years, filming and photographing the wildlife and indigenous peoples of the area, he has amassed a unique and wide-ranging collection of images. Written in a lively and accessible style, the accompanying text is both informative and entertaining.

About the Author Nick Gordon started his photography career as a news cameraman for the BBC, eventually obtaining his first wildlife commission. His films have been shown in over 100 countries around the world and he has won more than twenty international awards for his photography, including Best Film at the 4th International TV Science Festival, Paris 1993. He has made numerous films for the BBC Natural History Unit and ITV Survival. Nick was making films in the up to his death in 2004.
