William Gray : Wildlife Travel: 500 Ways to See Animals in their Natural Habitat (Footprint - Activity Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Wildlife Travel: 500 Ways to See Animals in their Natural Habitat (Footprint - Activity Guides):

From African safaris to cruises in the Galapagos Islands, there is a bewildering range of wildlife holidays on offer and deciding where to go and what to see can be a real dilemma. Footprints Wildlife Travel provides a comprehensive and authoritative guide to every imaginable type of trip, helping you identify the wildlife travel adventure that is right for you. Highlights the best wildlife experiences continent by continent Provides practical, hands-on advice from choosing the right tour operator to staying healthy Groups wildlife trips by type from safaris and cruises to bird watching and underwater life, helping you focus on your particular area of interest Features informative, first-hand accounts of wildlife encounters from tracking tigers in India to snorkeling with whale sharks making this guide a riveting read for armchair and experienced travelers alike Stunning full-color photography throughout helps bring the experiences to

life giving the book coffee-table appeal as well as offering a practical guide and indispensable planning tool. Experienced wildlife travel author, Will Gray, is a zoology graduate and has travelled the world in search of wildlife and wild places. Recently voted one of the UK's top 5 travel journalists, he has been writing articles and books for over 20 years. *Footprints* is an awe-inspiring guide to Wildlife Travel that will take you whale-watching in North America, camping on an African safari and tracking tigers in India. It will help you plan and enjoy the best of the world's wildlife adventures, enabling you to get closer than you ever imagined to the world's greatest wildlife.

'If you follow the advice and guidance offered in this excellent book, it will be good for the world's wildlife and the communities that support it too.' Kate Humble, BBC Wildlife Presenter "Wider-ranging than a blue whale and more densely packed than a butterfly migration, this new tome by Wanderlust contributing editor William Gray is the definitive manual for wildlife-loving travellers... Encyclopaedic." Dan Linstead, Editor, Wanderlust "Very impressive! Lustrously illustrated and great info" Simon King, Wildlife Film Maker and TV Presenter

About the Author Will Gray - A zoology graduate from Durham University, William Gray wrote and illustrated *Coral Reefs Islands* (commended in the Conservation Book Prize 1993) and has since travelled throughout the world in search of wildlife and wild places. Recently voted one of the UK's top five travel journalists, Will has been writing articles and books for over 20 years. A zoologist and award-winning photographer, Will has travelled extensively with his children (twins, aged 10) and rates Africa where he was born as his favorite destination.
