National Geographic Maps - Reference : World Executive, Pacific Centered [Enlarged and Tubed] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised World Executive, Pacific Centered [Enlarged and Tubed] (National Geographic Reference Map):

0 of 0 people found the following review helpful. I love it-its going on the wall as a travel mapBy hhThis is Giant! I love it-its going on the wall as a travel map0 of 1 people found the following review helpful. Five StarsBy B. K. RubioGreat product

National Geographic's World map is the standard by which all other reference maps are measured. The World map is meticulously researched and adheres to National Geographic's convention of making independent, apolitical decisions based on extensive research using multiple authoritative source.The Executive style World map uses an antique-style color palette and stunning shaded relief that provide a richness perfect for any decor. The Pacific Centered World map employs a unique view to accentuate the Pacific Rim, and focuses on Oceania and Asia and while showing the entire breadth of the Pacific Ocean. Drawn in a special Winkel Tripel projection, distortions are minimized and unlike many other World maps, Greenland is show the same size as Argentina and not as the size of all of South America.Thousands of place names are carefully and artistically placed on the map to maintain legibility even in the heavily populated ares of Europe, Asia and the Middle East. Details include clearly defined international boundaries, cities, physical features, rivers, and ocean floor features. Corner inset maps feature vegetation and land use, and population density as well as the north and south polar regions.Enlarged maps provide an immersive experience in any home or office environment. The exceptional cartography is even easier to appreciate at the larger size. The map is packaged in a two inch diamater clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:18,381,000Sheet Size = 73" x 48"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
