National Geographic Maps - Reference : World Executive [Poster Size and Laminated] (National Geographic Reference Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised World Executive [Poster Size and Laminated] (National Geographic Reference Map):

3 of 3 people found the following review helpful. Looks great in my office By AndreaMLove the vintage feel of the poster. It hangs in my office on a dark red wall which brings out some of the red tones in the map. One of the reviews criticized the thinness of the poster. Well number one you ordered a poster, that's what a poster is. Also, once you put it in a decent frame who is going to question this aspect of it? If I tape it to a wall in a dorm room, of course its going to look less than classy. If you put it in a nice frame, you can't go wrong here. 0 of 0 people found the following review helpful. Great map! By JDerrel Great map, good detail. I refer to it often when listening to world news. A good ongoing geography lesson. Highly recommend. 1 of 1 people found the following review helpful. quality map By C. Heller had this mounted on foam board for my daughter who studied abroad and want to mark her travels with pins. it is beautiful and inexpensive enough for to stick pins in.

National Geographic's World map is the standard by which all other reference maps are measured. The World map is meticulously researched and adheres to National Geographic's convention of making independent, apolitical decisions based on extensive research using multiple authoritative source, The Executive style World map uses an antique-style color palette and stunning shaded relief that provide a richness perfect for any decor. Drawn in the Winkler Tripel projection, distortions are minimized and unlike many other World maps, Greenland is show the same size as Argentina and not as the size of all of South America. Thousands of place names are carefully and artistically placed on the map to maintain legibility even in the heavily populated ares of Europe, Asia and the Middle East. Details include clearly defined international boundaries, cities, physical features, rivers, and ocean floor features. Corner inset maps feature vegetation and land use, and population density as well as the north and south polar regions. Poster sized maps make a perfect addition to any sized space. They are specially designed to maximize content in a smaller footprint than

standard wall maps and fit precisely into precut poster sized frames which makes finishing and hanging them a breeze. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:37,215,000 Sheet Size = 36" x 24"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
