National Geographic Maps - Reference : World Executive [Poster Size and Tubed] (National Geographic Reference Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised World Executive [Poster Size and Tubed] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Nice map By Monica Rodriguez Awesome poster. Love the neutral colors. The National Geographic logo at the bottom is kind of annoying, but other than that it's perfect. 0 of 0 people found the following review helpful. They don't look like the cheesy classroom maps By Lauren These maps are classy looking. We framed them and put them in pure kitchen, so we can discuss places in our world and point them in together add they come up. They don't look like the cheesy classroom maps. 0 of 0 people found the following review helpful. The map was wrong AND it was damaged. It ... By Troy M Ballinger The map was wrong AND it was damaged. It was a map of the US not the world. and the top of the map was ripped and bent.

National Geographic's World map is the standard by which all other reference maps are measured. The World map is meticulously researched and adheres to National Geographic's convention of making independent, apolitical decisions based on extensive research using multiple authoritative source, The Executive style World map uses an antique-style color palette and stunning shaded relief that provide a richness perfect for any decor. Drawn in the Winkler Tripel projection, distortions are minimized and unlike many other World maps, Greenland is show the same size as Argentina and not as the size of all of South America. Thousands of place names are carefully and artistically placed on the map to maintain legibility even in the heavily populated ares of Europe, Asia and the Middle East. Details include clearly defined international boundaries, cities, physical features, rivers, and ocean floor features. Corner inset maps feature vegetation and land use, and population density as well as the north and south polar regions. Poster sized maps make a perfect addition to any sized space. They are specially designed to maximize content in a smaller footprint than

standard wall maps and fit precisely into precut poster sized frames which makes finishing and hanging them a breeze. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:37,215,000 Sheet Size = 36" x 24"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
