**National Geographic Maps - Reference : World Hemispheres [Laminated] (National Geographic Reference Map)** before purchasing it in order to gage whether or not it would be worth my time, and all praised World Hemispheres [Laminated] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Beautiful!By slswankGreat map, arrived quickly and was really happy with it. The colors are really nice. I love that is is laminated. Great find!

During the 1930's and 1940's, several National Geographic world maps were designed using a projection that separated the eastern and western hemispheres. National Geographic has brought back this classic view of the world with updated, modern cartography and an elegant earth-tone color palette. This new, yet fashionably retro, world map is the World Hemispheres. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:37,330,000 Sheet Size = 42.75" x 24.5"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
