Hema : World, Upside Down before purchasing it in order to gauge whether or not it would be worth my time, and all praised World, Upside Down:

This map is unlike any other! The orientation is reversed from a standard North on top, South on bottom map. This time, the hemispheres are flip flopped and so are the continents, but still in a readable format (east coasts are west, and west coasts are east). The World Upside Down: This Pacific-centered map clearly shows all political boundaries and

capital cities.
