Carolyn Schott : Yes You! Yes Now! (R) Visiting Your Ancestral Town before purchasing it in order to gage whether or not it would be worth my time, and all praised Yes You! Yes Now! (R) Visiting Your Ancestral Town:

5 of 5 people found the following review helpful. A must book to have for the Traveling Genealogist By DarEII T. Weist "Visiting Your Ancestral Town" By Carolyn Schott is a absolute treasure trove of material for the Genealogist who has decided that birthday dates and death certificates are not enough to understand his/her ancestors. When that is the case then a trip to the Ancestral Town is in order whether that town is big or small any where in the United States

or whether it is any place some where else in the world. Schott provides helpful hints on first steps - what you need - when things go right -when things go wrong. It is hard to understand the emotional high, unless you have experienced it, to stand in a Church where your Grandparents were married or visit a house they once lived in. The emotional feeling of those kinds of experiences take the genealogical experience off the Pedigree sheets to a new and higher emotional level in the understanding of your origins and your relatives. It is must book for any genealogist traveling to their Ancestral Town5 of 5 people found the following review helpful. Concise, factual and entertaining!By CustomerMs. Schott's book motivates one to take the first step of the research journey. Nicely laid out and easy to read. I would recommend reading it cover to cover and then re-read it when you are ready to take action. Then get you highlighter and post-its out to flag the pages and sections that lead you to helpful information on the internet and other named sources. You may only want to research your `roots' in the USA; however the author provides stories and tips from her numerous overseas experiences which can lend to a domestic journey. Maybe it is the child in the adult me, but I like the photos. They serve as a good reminder to document finding with photos and words too.0 of 0 people found the following review helpful. A few tipsBy New YorkerHas a few tips, but nothing you wouldn't be able to find yourself with a little online research. Would have like a bit more substance.

Yes You! Yes Now! Visiting Your Ancestral Town was written by Carolyn Schott, a travel expert who started her adventures just like you: not knowing where to start or what to do. In less than an hour, you can learn from her experiences and enjoy the entertaining stories that will either inspire you to do it or wisely in-form you to take some other path. Either way, you'll enjoy the journey. Yes You! Yes Now! books are created especially for you - the action-oriented person who wants to try something new and wants to find out about it now. In no time you will have all you need to know to decide to give it a try including: Why do this? What it will be like First steps What you need When things go right When things go wrong What's next? Quick, easy, and fun. No long books to wade through. No long tedious hours surfing the Internet. The spring-board to action. Yes You! Yes Now!
