James Kaiser : Yosemite: The Complete Guide: Yosemite National Park (Yosemite the Complete Guide to Yosemite National Park) before purchasing it in order to gage whether or not it would be worth my time, and all praised Yosemite: The Complete Guide: Yosemite National Park (Yosemite the Complete Guide to Yosemite National Park):

4 of 4 people found the following review helpful. Great book from a great author!!By sigiWe love James Kaiser's guides! We used his Acadia guide last year so when we decided to visit Yosemite we knew what we were going to buy. Overall we have been very happy with this one, the pictures are, as always, beautiful and breathtaking, the explanations are interesting and accurate and the author really lays out in a very accurate way what you should do and where you should go. You can tell, though, the author isn't from here (he's from Maine, and you could totally feel that in the Acadia book), this guide feels a little more 'academic' but it's still very well documented, very complete and extremely well written (these are the only guides I actually enjoy reading before travelling). The historical part of the book is enlightening to understand the place and the short list of wildlife makes it easy to identify the animals you meet along the way. Also, we really love his accurate description of the hiking trails: somehow Kaiser always gets us in spots that are a little off the beaten trails and that are real highlights of our trip. At this point we might look out for the other Kaiser guides and travel to those places he has written about! :)5 of 5 people found the following review helpful. Excellent resource!By JANE GETZReading the book prior to our trip, we were able to prioritize our destinations and not waste time driving around as there is so much to see at Yosemite. Yosemite is definitely worth the trip. It is so vast and so awesome it just takes your breath away. By using this guide we knew exactly what was a "must see" and what would be secondary. Definitely worth the \$.0 of 0 people found the following review helpful. which is also useful; but wanted something I could carry and mark ...By Douglas Kent SmithHaven't made the trip yet, but his advice is very "user-friendly". Tells you what to expect and when. Accounts for a variety of travelers' needs, families, avid outdoors folks, average hikers, photographers, etc. Found it through his web site, which is also useful; but wanted something I could carry and mark up as I plan and as I travel. I still prefer "dead tree" books for some things!

Fully updated to include current travel information and newly expanded sections on the geology, ecology, and history of the park, this handy guide brings Yosemite National Park to life. Vivid, full-color photography and informed writing covers essential information on lodging, camping, outdoor adventures, and popular park activities in Yosemite Valley, Tuolumne Meadows, Wawona, and Hetch Hetchy. More than 20 hikes, ranging from easy to difficult, are covered in depth, with trail descriptions, elevation charts, maps, and photos. From the world-famous views of cliffs, waterfalls, polished granite domes, and giant sequoia groves to fine dining at the High Sierra Camp, this comprehensive travel companion allows anyone access to this fascinating park.

"Hands down, these are the best travel guidebooks I've ever read." Wandering Educators
