Do not go to WDW without this!!!!By KellyannCMy family is going to WDW next week, and I have read the other mentioned guide books cover to cover, and they were extremely helpful and offered tons of in-depth hints about pricing and reserving, etc.However, I was stuck trying to create a quick and dirty list of the basics so that I could carry it with us - (the other guides are big, thick and heavy). I got so turned around trying to remember all the recommendations from all of the parks, and what is rated too dark, or too loud, etc for my 4 year old.This has Top 20 lists, summary lists and such. So, if you are only going to buy one guide to Disney and you (like me) are starting with little or outdated knowledge, this may not be the book for you. HOWEVER, if you have made your plans are ready to get to the parks and you want a guide to take with you in the park.... this is essential! A GREAT summary book. It is not the ONLY guide, it is the EASIEST guide to handle and find what you need.(It also comes nicely with removable tabs to flag the important stuff as you go!)2 of 3 people found the following review helpful. Great bookBy Kathleen C. KearnsThis is a great guide book especially for those who have never been to Disney. I have been to Disney 20 times, but I am planning a trip in the Fall with several first time visitors and bought this for them. Also I am taking my nephew with me and have never taken a child with me to Disney and it has given me lots of great tips. It was well worth the price.0 of 0 people found the following review helpful. Efficient summary of DisneyBy EaglemanThis helpful guide is portable and efficiently summarizes reader's opinions about the varied offerings at Disney World. It was a useful tool for my most recent visit.
