before purchasing it in order to gage whether or not it would be worth my time, and all praised Zion National Park Adventure Set: Map Naturalist Guide:

It's clear from the guide itself that it's not intended for use in a place that has the type of climate that is prevalent in Zion. I'm not sure why they paired these together. I would recommend buying only the map if you are headed to Zion and not to any points farther south.0 of 0 people found the following review helpful. Great map of the park!By IronDogsI'm running across the park in April and wanted to have not only the topography map, so to add on the Flora and Fauna Guide was an easy call. Although I may not use it myself while running, my kids can use to explore while I'm out on the trail.0 of 0 people found the following review helpful. A bargainBy sueThis is a bargain. It is a great gift to prepare someone that loves flora and fauna for a visit to Southern Utah's canyon country and the map of Zion is invaluable..
